

User Guide

VComm_MostViewedGraphQI

Main Functionalities

1. Providing the graphql query for the most viewed Extension

GraphQL Query for MostViewed Products Blocks

```
{
  mostViewed(pageSize: 10, currentPage: 1) {
    configurations {
      block_title
      cart_page
      enable_module
      home_page
      myaccount_page
      pdp_page
      plp_page
      show_compare
      show_whislist
    }
    items{
      name
      sku
      price_range {
        minimum_price {
          regular_price {
            value
            currency
          }
        }
      }
      url_key
      image{
        url
      }
      thumbnail{
        url
      }
    }
    total_count
  }
}
```

Disclaimer

1. Prior to installing the module, it is strongly advised to create a backup of your server files and database.
2. We shall not be held responsible for any negative consequences that may arise during the installation process.
3. It is advisable to conduct your own testing by installing the extension on a test server.
